

## **SkillsUSA is the Career and Technical Student Organization for Students Enrolled in Skilled and Technical Science Programs.**

**Mission:** To empower its members to become world-class workers, leaders and responsible American citizens.

- SkillsUSA is a nationwide network of students and instructors in a common bond with powerful industry partnerships, serving more than 13.5 million members for over 50 years
- SkillsUSA is a partnership of students, teachers, and industry working together to ensure America has a skilled workforce
- SkillsUSA prepares America's skilled workforce through continually transformed instruction, influenced by an internationally recognized championship program
- SkillsUSA is an applied method of instruction for preparing students for careers in technical, skilled, and service occupations, including health occupations.
- SkillsUSA provides quality education experiences for students in leadership teamwork, citizenship, and character development.

### **Programs:**

SkillsUSA offers local, state and national opportunities for students to learn and practice personal, workplace and technical skills. These three components comprise the SkillsUSA Framework, a blueprint for career readiness. Local chapters conduct a full program of work and many students also attend a district or state conference. At the SkillsUSA Championships, more than 6,000 students compete in 100 occupational and leadership skill areas each June. These national technical competitions help establish industry standards for job skill training and entry-level workers. SkillsUSA is recognized by the U.S. Department of Education as a successful model of employer-driven youth development training.
